

# Custom Framing & Matting

Are you interested in learning how to custom frame your art work or photo-

graphs? Do you have a drive to learn more about how a frame and mat can enhance an object or a piece of art? RMD Gallery & Framing Studio would like to invite you to a one-day session on how to mat and frame your special projects. Receive hands-on training using professional picture framing equipment, along with the tips and tricks of the trade to make a professional looking framed project

Learn from professionals what it takes to make that one special photograph or painting into a complete work of art.

## What will I learn?

During the class, you will learn how to cut single openings, multiple openings, and special shapes in both single and double mats. You will also learn how to cut your frame and join the frame using the same equipment that is used by professional picture framers everyday.

Along with learning how to create a frame and cut a mat, you will learn mounting methods and how to chose and

cut the glass for your project. You will also be trained on conservation methods to protect your projects from elements that can damage or harm your art.

## What's included

Once registered for the class, you will receive the following:

Pre-class session: Two weeks before the class, you will meet with one of our designers who will consult with you on what type of frame and mats you would like to use. ***The cost of these supplies is not included in the registration fee.***

Class session: The framing class will be led by certified professional picture framers. Your registration fee also covers all materials needed for the hands-on training sessions (practice mats, etc.).

By the end of the day you will have framed and matted the one project that you brought with you using the frame and mats that you chose in the pre-class session.

Classes will be kept small to ensure that everyone has a chance to complete their projects. Register soon to reserve your spot in an upcoming class.

## Cost

**\$95.00 per person + framing project supplies** (*cost will depend on project size and mat/frame selections*)

***Students will receive their framing project supplies (mats/frame) at a 50% discount.***
